SUMMARY

As a seasoned Full Stack Developer, I bring a wealth of experience in crafting dynamic and responsive web applications. Proficient in a versatile tech stack, my expertise encompasses React.js, Laravel PHP, MySQL, HTML, CSS, and Node.js. With a proven track record of successfully delivering end-to-end solutions, I excel in creating intuitive user interfaces, optimizing back-end functionality, and ensuring seamless integration of databases. My commitment to staying abreast of emerging technologies allows me to navigate and leverage a variety of tools, ensuring that my contributions align with industry best practices. With a passion for innovation and a dedication to delivering high-quality results

EXPERIENCE

Software Engineer

09/2021 - Present

Quilltez ↗

- Led full-stack development projects using React.js, Laravel PHP, and MySQL, delivering modern and efficient web applications.
- Successfully implemented and customized Drupal CMS solutions, meeting diverse content management needs.
- Developed scalable server-side applications with Node.js and Next.js enhancing real-time functionalities across projects.
- Seamlessly integrated Third-Party APIs and Supabase, expanding functionality and ensuring compatibility with external services.
- Orchestrated end-to-end integration of Stripe Payments, optimizing payment flows and ensuring secure online transactions.

Software Developer

03/2021 - 08/2021

Vac Softtech ↗

- Played a central role in the development and optimization of a robust Customer Relationship Management (CRM) system, leveraging PHP and MySQL.
- Designed and implemented efficient MySQL databases, ensuring seamless data management and retrieval for the CRM.
- Utilized PHP to develop custom functionalities within the CRM, enhancing user experience and meeting specific business requirements.
- Collaborated closely with stakeholders to understand CRM needs, translating them into effective PHP code and MySQL database structures.

Support Engineer

09/2020 - 02/2021

Scrum Systems ↗

- Played a key role in optimizing database performance and ensuring seamless functionality in management systems.
- Utilized strong SQL skills to optimize queries, resulting in improved response times and efficient data retrieval.
- Led PHP development initiatives, contributing to dynamic and scalable features that enhanced user interfaces and overall system performance.
- Collaborated with cross-functional teams to translate business requirements into effective SQL queries and PHP code for integrated and cohesive management systems.

Feel free to customize the language and details based on your specific contributions and achievements

- Played a pivotal role in the end-to-end development and successful deployment of dynamic web applications on construction sites.
- Utilized a diverse tech stack, including Laravel PHP for robust back-end development, Python Django for efficient server-side processing, MySQL for optimized database management, and AWS EC2 for scalable cloud infrastructure.
- Ensured seamless integration of features and functionalities during the development and deployment processes.
- Developed proficiency in full-stack development through hands-on experience with various technologies, showcasing the ability to navigate and leverage a variety of tools in real-world scenarios.

EDUCATION

Information Technology	06/2016 - 05/2019
SSN College of Engineering - Bachelor of Technology	
Computer Science	07/2013 - 04/2016
Murugappa Polytechnic College - Diploma in Computer Science	

CERTIFICATES

ARTIFICIAL INTELLIGENCE(AI)	09/2019 - 11/2019
Besant Technologies	
Machine Learning	05/2019 - 07/2019
Credo Systemz	

SKILLS

Drupal	Intermediate	Node.js	Intermediate
GIT	Advanced	Laravel PHP	Advanced
MySql	Advanced	Node.js	Intermediate
React Js	Advanced
